Author index of Volume 43

Abramov, S. and R. Glück, The universal resolving algorithm and its correctness: inverse computation in a functional language	(2–3)	193–229
Backhouse, R. and J. Oliveria, Preface	(2–3)	91– 92
Bunkenburg, A., *see* J.M. Morris	(1)	77– 89
Glück, R., *see* S. Abramov	(2–3)	193–229
Hayes, I., Reasoning about real-time repetitions: terminating and nonterminating	(2–3)	161–192
Hinze, R., Polytypic values possess polykinded types	(2–3)	129–159
Jansson, P. and J. Jeuring, Polytypic data conversion programs	(1)	35– 75
Jeuring, J., *see* P. Jansson	(1)	35– 75
Morris, J.M. and A. Bunkenburg, A source of inconsistency in theories of nondeterministic functions	(1)	77– 89
Nordlander, J., Polymorphic subtyping in O'Haskell	(2–3)	93–127
Oliveria, J., *see* R. Backhouse	(2–3)	91– 92
Usenko, Y.S., State space generation for the HAVi leader election protocol	(1)	1– 33
